Required Training and Certification Information for All Supervisors

Colorado State University recognizes the importance of the supervisory role and the impact a supervisor has on employee engagement and satisfaction. To continue to develop and create a positive work environment, all supervisors will participate in the Supervisor Development Program offered through the Office of Talent Development. The offices of the Vice President for Diversity, Equal Opportunity and Human Resources contribute to the class selections.

For those interested in receiving a certification, additional training is available that allows participants to select classes and experiences that best fit their unique needs as a supervisor. Programs are available in My Learning to reflect your progress towards and completion of both the required trainings and Certification.

**Required training:** Supervisors must complete all four classes in the Foundation category and an additional two classes from either the Core or Elective categories. Supervisors should complete these within three years.

**Certification:** includes completion of all four classes in the Foundation category, four classes from the Core category (one from each theme) and any four classes from the Elective category.
