Required Training and Certification Information for All Supervisors

Colorado State University recognizes the importance of the supervisory role and the impact a supervisor has on employee engagement and satisfaction. To continue to develop and create a positive work environment, all supervisors will participate in the Supervisor Development Program offered through the office of Talent Development. The offices of Inclusive Excellence, Equal Opportunity, and Human Resources contribute to the class selections. Additional information is available on the Talent Development website or email CSUTraining@colostate.edu.

For those interested in receiving a certification, additional training is available that allows participants to select classes and experiences that best fit their unique needs as a supervisor.
